

## Not Sleeping

## The Twilight Sad

And you left to Illinois  
Is overdone  
And now you're lonely  
And two feet off the ground

And If you'd fallen  
You'd be seeing  
You're never right  
But when you told me  
Be careful with your arms around

And the past will never come  
And dear holds a dearer  
And dear holds a dearer

Now you craving for your own way out  
And dear holds a dearer  
And no one ever knows  
Where she has gone

And you left to Illinois  
Is overdone  
And now you're lonely  
Two feet off the ground

And as you're fallen  
Too selfish  
To say goodbye  
Cause you were always  
Be careful with your arms around

You came down, now you've fallen  
And your dance will never come  
And dear holds a dearer  
And dear holds a dearer

You came down, now you've fallen  
Now you craving for your own way out  
And dear holds a dearer  
And no one ever knows  
Where she has gone

No sense here  
No sense here

You came down, now you've fallen  
And the past will never come  
And dear holds a dearer  
And dear holds a dearer

You came down, now you've fallen  
Now you craving for your own way out  
And dear holds a dearer  
And no one ever knows  
Where she has gone

No sense here
