

Sunday Day13

The Twilight Sad

It's happened too many times
You hit me too many times
It's happened too many times
You hit me too many times

It won't be like this all the time
I hope you never change your mind
It's happened too many times
Still your not grieving

Would you throw me out into the cold?
Would you throw me out onto the road?
If that's what you were told
Would you throw me out into the cold?
If that's what you were told

Time to shoot the crow
It's our to and fro
You should shoot the crow
It's our to and fro

Will you always be mine?
If I promise to be nice
Please don't ever change your mind
You should hate me

Would you throw me out into the cold?
Would you throw me out onto the road?
If that's what you were told
Would you throw me out into the cold?
If that's what you were told

Time to shoot the crow
It's our to and fro
We should shoot the crow
It's our to and fro

They just want us dead
You can take it out on me
Is it better left unsaid
Take it out on me

They just want us dead
You can take it out on me
Is it better left unsaid
Ake it out on me
