

The Wrong Car

The Twilight Sad

And we were there with our ears to the ground
'Cause he was right behind you,
And are you ready for the island?
Don't you see when it breaks apart
'Cause you weren't in fear
and you weren't marked
and you weren't in fear

Do you stay out at night
'Cause it's more than you can bear to show
Do you stay out at night
'Cause it's more than you can bear to show

'Cause we've been wrong before
And on the right side of the wrong car
And we've been wrong before
And on the right side of the wrong car

And what was frail from the laughs and the walk
'Cause he was right behind you,
And are you ready for the day's end?
she was rising but the run, it wasn't far
The brush was thrown when you were tired
your cards were marked
And are you ready for the day's end?

And is your pretty little dress all covered in dirt?
Your pretty little dress all covered in dirt?

Do you stay out at night
'Cause it's more than you can bear to show

Oh you'll slow down
'Cause I had everything you wanted
Oh you'll slow down
Now, now, now

'Cause we've been wrong before
And we've been wrong before
And on the right side of the wrong car
And on the right side of the wrong car

And oh I lay
and do you worry about me
Because I'm always,
I'm waiting to see you
And does your stomach still ache,
From the wife that he'll take?
Because I'm always,
I'm waiting to see you

And oh I lay
and do you worry about me
Because I'm always,
I'm waiting to see you
And does your stomach still ache,
From the wife that he'll take?

Because I'm always,
I'm waiting to see you

Do you stay out at night
'Cause it's more than you can bear to show
Do you stay out at night
'Cause it's more than you can bear to show
And we've been wrong before
Do you stay out at night
'Cause it's more than you can bear to show
And we've been wrong before
Do you stay out at night
And on the right side of the wrong car
And on the right side of the wrong car
