

# Throw Yourself Into the Water Again

The Twilight Sad

and we're dancing over your grave  
and the lights were only two steps down  
and we're dancing over your grave  
and the shadows move when you're around

and I, I never asked you  
your breath in the air  
I'm caught in your hair  
and I'll tie up your legs for you

and it's a long, long time in disguise  
and I'll catch them all  
and I'll catch them all there

it's a long, long time under ice  
when you snatched them all  
and you trapped them all there

you'll all take a go  
with a hammer at the door

and it's a long, long time in disguise  
and I, I never asked you, you're never in time  
you'll never be mine  
and I just want you to understand

when I'm dancing over your grave  
and your hands are only halfway down  
and I'm dancing over your grave  
and your hands are only halfway down

and I, I never asked you  
your breath in the air  
and I'm caught in your hair  
I'll tie up your legs for you

and it's a long, long time in disguise  
and I'll catch them all  
and I'll catch them all there

it's a long, long time under ice  
when you snatched them all  
and you trapped them all there

you'll all take a go  
with a hammer at the door

and it's a long, long time in disguise  
and he pushed you  
and it's a long, long time in disguise  
and he pushed you  
the whispers in the wind start

it's a long, long time under ice  
and he pushed you  
the whispers in the wind start

and I'll catch them  
and I'll catch them all there  
it's a long, long time in disguise

and I'm dancing over your grave  
cause the lights were only two steps down  
and I'm dancing over your grave  
and your hands are only halfway down  
and I'm dancing over your grave

there's only one body found  
we're scraping the barrel  
reach in your hand and I'll pull you down  
we're scraping the barrel

and it's a long, long time in disguise  
and I'll catch them all  
catch them all there  
it's a long, long time in disguise  
when you snatched them all  
and I'll catch them all there  
it's a long, long time in disguise

we're scraping the barrel  
reach in your hand and I'll pull you down  
we're scraping the barrel  
and it's a long, long time in disguise
