

I've been waitin' for you  
There's nothin' that I'd rather do  
You'll stop me from fallin' in the ground

And please don't leave me alone  
And I won't cope on my own

I don't know who to trust  
Don't let me do my worst  
I don't know who to trust

Runnin' away doesn't feel so bad  
No, runnin' away doesn't feel so bad

There's a monster inside of you  
Someone that you never knew  
And someone that we didn't choose

And he won't leave us alone  
And please don't leave me alone

I don't know who to trust  
Don't let me do my worst  
I don't know who to trust

There's no love too small  
There's no love too small

Will you take my love instead,  
And help me rest my head?  
I'll forget everythin' they said  
If you take my love instead

There's no love too small  
There's no love too small  
And I won't be surprised if it kills us all  
And I won't be surprised if it kills us all  
There's no love too small  
And I won't be surprised if it kills us all  
There's no love too small  
There's no love too small
