

Get The Wheel

The Twilight Singers

get the wheel
let's go for a ride
if you're trouble, then i'll follow you down

last night, i saw the strangest light
i wanna see it again

i'm wide awake
somebody put a
gun in my face
"go ahead," i said
erase

and then we gonna

get the wheel
let's go for a ride
if you're trouble, then i'll follow you down
last night
last night was alright
i wanna see you again
