

## Sublime

## The Twilight Singers

There are ways of making you say  
What I want you to hear in your head  
If you stray, I'll push a button on you  
I'm gonna show you how to-  
Disappear in your bed

Your mind don't need to know  
The blind are led below-  
But, baby, when we close our eyes  
You feel the lovers start to synthesize

Sublime-  
As you want it  
Untied-  
If you wanna be free  
You're mine-  
And you know it  
As much as you want to believe

Seven days I put the covers on you  
Nobody talks about it here no more  
If you stay, I'll make a lover for you  
I'm gonna show you how to-  
Disappear once more

Your mind don't need to know  
The blind are led below-

Sublime  
As you show it  
Untied-  
If you wanna be free  
You're mine-  
And you know it  
As much as you want to believe

All I wanna feel  
And thus, reveal  
Behind the veil  
And-  
All I wanna steal  
I must conceal  
Beyond the pale-

Sublime  
As you want it  
Untied-  
If you wanna be free  
You're mine-  
And you know it  
As much as you want to believe

Sublime  
As you show it  
Untied-  
If you wanna be free  
You're mine-

And you know it  
As much as you want to believe
