## **Time Will Tell**

## The Twins

Time was - when time stood still for our rendezvous My heartbeat - hit danger-zone when I thought of you What we had - felt like an eternity And nothing could go wrong - or steal our ecstasy

When you're sleeping next to me I'm waiting for the day I lie awake and dream of you A thousand miles away

So time will tell - and time's never wrong So time will tell - but time takes so long

Our time is up - or that's the way that it seems to be Your heartbeat - is beating now for your liberty What we had - can never return again

No matter what we do - no matter who takes the blame

I lie awake and dream of you A thousand miles away

So time will tell - and time's never wrong So time wil tell - but time takes so long
