

Channeling

The Underachievers

I'm just channeling the vibe from what I feel inside
Who woulda thought I'd be worldwide with my niggas, not I
I'm just channeling the vibe from what I feel inside
I'm just channeling the vibe from
I'm just channeling the vibe from

I been on drugs strugglin' for over ten years
Put a couple in the past, but a couple still here
And I'm tryna grow up but it seems my biggest fear
Is bringing pain from the past, to a future that ain't clear
I learned a lot from the other side
Destroyed and built my mind
Showed me the drunken side, the different way the colors vibe
But every chapter in your life changes like the season
Can't depend on a drug when its controlling how you feelin'
Can't depend on getting high just to give your life meaning
Everything in moderation but a nigga couldn't see it
Been abusing different thing and convinced myself I need it
'Til it went from a pleasure to a nigga just fiendin'
But you know that we could weather the storm
Learn to perform with the heart
Like throwing darts, a nigga hittin' the mark
I don't regret I always learn from the dark
I learned to swim with the sharks
A hard past could make your future look sharp
It's a million steps off of the earth
Chasing nirvana niggas built a house outta the dirt
Devil came knocking, "do you got any sugar?
Or is your mind fucking salty
Watching other niggas prosper, gon' fuck up your shit homie"

What I feel inside
Who woulda thought I'd be worldwide with my niggas, not I
I'm just channeling the vibe from what I feel inside
Who woulda thought I'd be worldwide with my niggas, not I
I'm just channeling the vibe from what I feel inside
Who woulda thought I'd be worldwide with my niggas, not I
I'm just channeling the vibe from what I feel inside
I'm just channeling the vibe from
I'm just channeling the vibe from

I'm just channeling the vibe from what I feel inside
Who woulda thought I'd be worldwide with my niggas, not I
Treat each challenge like my ride and whip that shit in drive
You never know you might just blow like its Fourth of July
Niggas afraid to speak up and change shit
Member them nights put in work in the basement
No level fame, could ever replace that
All of my niggas up with me creatin'
Shit was amazing, uh
Pull up no matter, where ever, you know that we blazin, uh
[?] divide and you the remainder
I leave that shit in the past
Ain't part of my story, not part of my cast
Most of these niggas just after my cash
But I keep a gun and a clip in the stash
You do the math, uh

Came from the struggle just wanted this feeling to last
This shit in blood, ain't no ink on my pad
I'm in the hood and you don't get a pass, uh
Came up from the gutter but I had to change my path
I stay humble any moment and this word could be your last
Life is like a puzzle hear this shit too much to grasp
To get through it, gotta rid that fear and wish them kids don't crash
Hope you keep your focus
Mad distractions leave you domeless
Might be sweet aroma
Know they [?] try control us
Work hard what I told 'em, they didn't listen so I showed 'em
Now a nigga lit I climb my way on top of totem
