### The Underachievers

Never fake I play my role, could call me Harrison Ford

Devil's lettuce from the west I ship it back and blow if forward  
Keep a strap, I'm full of tech like I was Indiana Jones

Don't be tryna call me up when I don't fuck with what you saying

Roll the spliffs up by the pound, blow circles in my clouds  
Ride the wave you might just drown, I'm cleaning up the town  
Im in the back seat riding clean, I had the ratchet with the beam  
I pulled up with the gangsta lean, no double cup, promethazine

And then I repeat, I told her I can help her vision with these VVs  
Yeah baby walk straight to the light and you gone be free  
She know I get all my wishes work the Chi Chi, and this the cheat sheet  
I wear my heart out on display, keep it real don't fake  
Keep me in the complex they be down to spray the kay  
Never catch me slipping what a bitch nigga no way  
Told that bitch come back, go back to the crib and then I slay  
Keep a calm pulse, my life like a coin toss  
I got hittas on call, I got groupies on call  
My dick breaking down walls, need her fix she got withdrawals  
Make you flip like summersaults, told her take the summer off  
Beast mode, I've been stuck in beast mode, this shit like a free throw  
You niggas on my [?] sheesh hoe
