Away we gon' go
So amazin' baby
Been havin' moments lately

I be blind to all the bullshit like the legend Stevie Wonder
Kick it back turn on the flick and roll a little tropic thunder
If I ain't switch up my shit then I be probably six feet under
Now I resurrect the light like I done dug it out the rubble
Luther Vandross, house is not a home if love ain't it in
I be shinin' 'til I'm finished
Talk my shit while I'm still livin'
Still get checks and still gon' spend 'em
I ain't in it for the clout
Tryna get me make a difference in myself and all around
Well alright

When I wake up in the morning
I give thanks, no day is promised
Had to flip the script like omelettes
Put my soul and mind in bondage
Can't control, my mind too godly
Keep good aura 'round my posse
Try to test us, kamikaze
Count my blessings, word to Kami
Keep my head up, lead the army
I can't play no games, Atari, nah
Rollin' up the palm trees

Got my dreams within my arms reach
Throw your shade but that can't harm me
I can't fold like origami
I got chapters that's untold
I got paper to unfold

It's a major step to Heaven, even shorter walk to Hell
And the world could take you under if you fall under her spell
I be dodgin' incantations, throwin' lightning bolts myself
You can change the repetition, makin inhibitions melt
Ima keep on flexin', I put some diamonds on my neck
You can keep your weapons, only bring women to my set
Niggas keep half steppin', I'm taking leaps with every breath
Go to slow and you get left
Movin' light speed to the death
Well, alright

I be blind to all the bullshit like the legend Stevie Wonder
Kick it back turn on the flick and roll a little tropic thunder
If I ain't switch up my shit then I be probably six feet under

Had to get back to my goals
A major setback chasin hoes
Make an impact with the flow
But you know I want plenty mo'
Open up addictions, know my optimism kept my strong
Lack of wisdom had me caught up, intuition led me home

I know addiction is hard, because I be strugglin' myself
Know depression goes on, that shit hit right below the belt
Know them friends could be wrong, them niggas ain't been any help
Fuck these niggas let's get paid
Cop a flight and run away
Well, alright
