

## Maxing Out

### The Underachievers

Me and my niggas just maxing out  
Passing weed till we're passing out  
Motherfucking guys better watch your mouth  
Yea you know what the fuck my gang about  
Growing up, floating on  
That LSD, that potent drug  
Got a nigga blowing up like opera  
If you don't know God, let me show you bro!  
Let me show you bro!  
If you ain't with us!  
Let me show you bro  
If you ain't with us!  
All my living guys they fuck with us  
All my queen bitches, they know what's up  
If you ain't with the white, get the fuck from us  
On some Third Eye shit what you put it on

Lucy got me lucid, sour deezal, power refill, uh  
Due to the fact I rap she confessed her love for a nigga  
Why you're staring to the people?  
Helo lovers are controlled by the ego  
We float nigga bow down to the beast coast  
We smoke by the piece, so we go join now  
Maxing out, packs are loud at the shows  
Merfed it out in the garage, nigga so blow go  
You know what I'm talking about  
Deep inside lil homie free your mind  
And try to deep the shine of your elite design.  
Read the signs, they're getting weaker, you conquer  
So I yoga the flame, went to the blood full of Blanca  
Releasing the pain, I shook a bitch so not  
She's popped shit off, nigga the goon squad guy is lost  
Who gonna stop me now?  
Third Eye chop em down  
Got shades on, I don't see these clowns  
Elevated nigga, you stuck to the ground!  
You aim, you tight, you aim  
For the cool guys that I utilize  
I bring from the rise to the most high, nigga fuck fame  
If Lakwich be the block which we came from  
Ain't shit changed with the income  
It's 2012, niggas still dumb  
My dick superstar, for she'll still come  
But off Lara Croft, homey ain't done  
To the hundred millions so it's good I've lived here  
47 shift bitch, demons on the hit list, bow  
Success knock a nigga down  
I'll be puffing loud on the cloud, maxing out

Four nigga's in the room so we burn four  
One man to a split burnin double O  
And if a couple bitches come we gonna get mo  
And if we finna get drunk get the Rosmo  
And now we sippin that lean, got me slow mo  
I'm getting high, trap my body and free my mind  
Clear the negative that's inside  
This weed is strong though, you know my style!
