

She Can Only Say No

The Undertones

I got to find a way to face the day
Got no time to hesitate
No more hanging around the door
Cos she can only say no

No boy has gone ahead and asked her straight
I don't have the time to wait
Don't know what I'm supposed to say
Though she can only say no

She can only say no - no - no
She can only say no - no - no
She can only say no - no - no

No boy has gone ahead and asked her straight
I don't have the time to wait
Don't know what I'm supposed to say
Though she can only say no

Does she like you or something
