Everything's Alright

The Union

Colors around me and stars in my eyes
Honey is raining from bright blue green skies
And your song is playing
Yes it echoes in my mind
Rainbows are pointing to strawberry fields
Walrus keeps singing to fools on the hill
Now I stop and wonder
If yesterday has passed me by, yeah

Hello, Goodbye
(Is everything, is everything alright)
Good day, Sunshine
(Is everything, is everything alright)
Hello, Goodbye
(Is everything, is everything alright)
Good day, Sunshine
(Is everything, is everything alright)

Blackbirds are singing, they're calling my name
Imagine a change but the word's still the same
The road is long and winding
But there's love along the way

Hello, Goodbye
(Is everything, is everything alright)
Good day, Sunshine
(Is everything, is everything alright)
Hello, Goodbye
(Is everything, is everything alright)
Good day, Sunshine
(Is everything, is everything alright)

Hello, Goodbye
(Is everything, is everything alright)
Good day, Sunshine
(Is everything, is everything alright)
Hello, Goodbye
(Is everything, is everything alright)
Good day, Sunshine
(Is everything, is everything alright)

Hello, Goodbye
(Everything, everything, everything's alright)
Good day, Sunshine
(Everything, everything, everything's alright)
Hello, Goodbye
(Everything, everything, everything's alright)
Everything's alright
