

# Best Things in Life Aren't Free

## The Unlikely Candidates

Life is but a dream  
(A trip to find identity)  
I slouch like a monkey  
I'm a physical being  
That's why I called you up  
(To get down with you and share my cup)  
You say the feel of this is  
Better than love

You said "the best things in life aren't free"  
Touch your money, hold your drug  
Don't believe in what you see  
The best things in life aren't free  
Don't want to feel, need the real  
The best things in life aren't free

To know my heart the best  
(You'd have to cut it out my chest)  
Your fingers press  
But I'm not sure 'bout the rest  
My imagination runs away from me  
(You and me girl are just material beings, material things)  
It lives in the country with Juliet and destiny

You said "the best things in life aren't free"  
Touch your money, hold your drug  
Don't believe in what you see  
The best things in life aren't free  
Don't want to feel, need the real  
The best things in life aren't free

I can't buy the sunshine in your eye  
Or the slice of death where our bodies writhe  
Let's get metaphysical  
Nah let's just get physical  
I can buy the chemicals I need  
And your clothes chateaus and USB's  
The whole world is in our hands  
So why can't you understand

You said "the best things in life aren't free"  
Touch your money, hold your drug  
Don't believe in what you see  
The best things in life aren't free  
Don't want to feel, need the real  
(Just know that it's all make believe)  
The best things in life aren't free
