

## High Low

### The Unlikely Candidates

Sometimes I get so high so low  
Where did all my good friends go  
Sometimes I get so high so low  
Where did all my good friends go

Drinking champagne from the fire escape watching all my troubles rain down  
Everyone I knows got somewhere to go I'm here with my head in the clouds  
Billions of people but there's no one like me

I'm left I'm right I'm out of my mind don't even know myself sometimes

I get so high so low  
Where did all my good friends go  
Sometimes I get so high so low  
Where did all my good friends go  
High Low High Low  
Where did all my good friends go  
High Low High Low High Low High Low

Hear my neighbors talk thru these thin walls  
Maybe I'm just feeling left out  
Sleeping on the floor of my castle  
Wonder if I'll ever come down  
Billions of people but there's no one like me

I'm left I'm right I'm out of my mind I trust myself but I don't know why

I get so high so low  
Where did all my good friends go  
Sometimes I get so high so low  
Where did all my good friends go  
High Low High Low  
Where did all my good friends go  
High Low High Low High Low High Low

If I'm feeling right  
I'll go out tonight  
Meet some strangers like me

I'll be stumbling home  
Searching high and low  
For somebody like me

For somebody like me

Sometimes  
I feel so high so low  
Where did all my good friends go  
Sometimes I get so high so low  
Where did all my good friends go

I keep on looking for somebody like me  
I've got this feeling that you know what I mean

High Low High Low  
Where did all my good friends go  
High Low High Low High Low High Low

Where did my  
Where did my  
Where did all my good friends go  
Where did my  
Where did my  
Where did all my good friends go
