

## Cherry

The Used

I feel like burning it to the ground  
I build it up to break it  
I don't know why you keep me around  
Are you just afraid of changing?  
Going to make a scene until you leave  
'Cause I'm on a losing streak  
I used to be the cherry on top  
Now I'm the nail in the coffin

So bury me in the dirt where I belong, bury me  
If all I do is love you wrong, bury me  
There's so much lower I can go, so bury me  
'Cause I'll do it if you don't bury me

I feel like making an awful sound  
And you don't need to save me  
And if you think that I've been down  
You don't know how far I can take it  
Going to make it bleed  
Maybe misery is the medicine I need  
I used to be the cherry on top  
Now I'm the nail in the coffin

So bury me in the dirt where I belong, bury me  
If all I do is love you wrong, bury me  
There's so much lower I can go, so bury me  
'Cause I'll do it if you don't bury me

Bury me  
'Cause I'll do it if you don't (Bury me)  
I can do it if you don't (Bury me)

So bury me in the dirt where I belong, bury me  
If all I do is love you wrong, bury me  
There's so much lower I can go, so bury me  
'Cause I'll do it if you don't bury me

So bury me
