

Dopamine

The Used

I love the way that you choke me to death
Silently screaming my name
The monster inside you is gaining on me
Putting me right in my place

I'm not as scared as I've ever been
I'm just afraid to go back again
Just keep me tied up and strapped to the bed
Ripping the smile from my face

You're like dopamine
Flooding my system and I never listen to anything
Just like a sickness that doesn't need fixing at all

Fixing at all

I love the way that you spread your disease
Needles all up in my veins
Flatline the heart and discarded the brain
Holding my head right in place

I'm not as scared as I've ever been
I'm just afraid to go back again
Just keep me tied up and nailed to the cross
Ripping the skin from my face

You're like dopamine
Flooding my system and I never listen to anything
Just like a sickness that doesn't need fixing at all

Fixing at all
Fixing at all

You're like dopamine
Flooding my system and I never listen to anything (Anything)
Just like a sickness that doesn't need fixing at all

Don't need anything
You're my everything, don't need a savior at all

You're like dopamine
Just like a sickness that doesn't need fixing at all

Fixing at all
