

Find a Way

The Used

Lay your head down just for now,
Space fills your mind
Ans you dream a while,
The sun floods your room as you drown.
Your lungs full of breathing,
Your true love, Believe

One more time to say
I love you always,
And keeping faith,
Letting love find a way

Move let the stars suck you in,
Hold tight, the night's air and breathe, again.
Let go and be burnt by the moon,
Your hands full of feeling
Your true love, Believe

One more time to say
I love you always,
And keeping faith,
Letting love find a way

One more time to say
I love you always,
And keeping faith,
Letting love find a way

I love you to death,
Could you love me to death?
I love you to death,
Could you love me?
Could you love me?

One more time to say
I love you always,
And keeping faith,
Letting love find a way

One more time to say
I love you always,
And keeping faith,
Letting love find a way
Letting love find a way
Letting love find a way
Letting love...
