Pain

The Used

Fade away
So you don't make a scene
close your mouth and try keeping it closed forever
Afraid of what you are
Afraid of how you
Learn to close your mouth and try keeping it closed forever

If you had the mind to just check out
Its something better that nothing
I'm not the type to scream and shout
(yeah)

Pain
In pains me just to see you with
rather be lost in a river without you
Pain, pain, pain.

You made your point
You don't know what to say
close your mouth and try keeping it closed forever
You never come so close
You never got this far
You close your mouth and try keeping it closed forever

If you had the mind to just check out
Its something better that nothing
I'm not the type to scream and shout
(yeah)

Pain
In pains me just to see you with
rather be lost in a river without you
Pain, pain, pain.

shamed of what you are and what you been
It must be hard living tired in your shoes
Shame, shame, shame
Shame, shame, shame

So cry bad day
Grey clouds, black haze
So sure the sun could collapse your ways
So cry bad day
(So cry bad day)
So cry bad day
(So cry bad day)
So cry bad day
(So cry bad day)
So cry bad day
(So cry bad day)

Pain
In pains me just to see you with
rather be lost in a river without you
Pain, pain, pain.

shamed of what you are and what you been

It must be hard living tired in your shoes
Shame, shame, shame
Shame, shame, shame

Pain

Keep your mouth closed
Keep your mouth closed
Keep your mouth closed
Keep your mouth closed
Keep your mouth closed
closed closed
Keep your mouth closed
