Upper Falls

The Used

Maybe I was asleep and dreaming while you sat alone
Love, I never sleep: was in the front seat of the bus watching the road
Never the right time to say something or let it go

You taught me something about love that I could never learn alone
We'd hike the railroad tracks to the vortex
Upper falls to the stone

Never the right time to say something
I never have to let you go
Just gonna need some time for breathing slow

I see a loaded gun
I can't take anymore
I see the truck parked up in the canyon
With nobody home

I see your bass guitar in your room
And Pearl Jam Ten on the wall
Just what did it take
To trigger the end

Too many trips to the bowl and the bond fire mask watched our friends go one by one
I stood with you through how it feels to be something on
Time played my favorite song

Never the right time to say something
I never have to let you go

Just gonna need some time to learn to breathe slow

I see a loaded gun
I can't take anymore
I see the truck parked up in the canyon
With nobody home

I see your bass guitar in your room
And Pearl Jam Ten on the wall
What I could not say
Just what did it take
To trigger the end

What could I say
What could I say

I see a loaded gun
I can't take anymore
I see the truck parked up in the canyon
With nobody home

I see your bass guitar in your room
And Pearl Jam Ten on the wall
Just what did it take
I should have been there

I see a loaded gun

I can't take anymore
I see the truck parked up in the canyon
With nobody home

I see your bass guitar in your room
And Pearl Jam Ten on the wall
And what did it take
To trigger the end

I could have been there
I miss you my friend
