## Wow, I Hate This Song

Bad songs sneak up on me like a horror film Every problem is another pill We're all susceptible, we all know those Bad songs, everything that's on the radio Makes me wanna fucking bash my skull Hurt myself literally

Every time I hear the key I see you in the melody Never was a part of me

Wow, I hate this song Each time it comes on I hate this song Each time it comes on

La-la-la, make it stop La-la-la, heard enough La-la-la, holy fuck I don't wanna sing along La-la-la, make it stop La-la-la, heard enough La-la-la, holy fuck I hate this song (I hate this song)

Shut it off, swear I never even had a chance Notes are hitting, makes an avalanche Damn, this is miserable, please, won't someone Shut it off? Break the record right in half Heart feels like it's being stabbed Kills me emotionally

Every time I hear the key I see you in the melody Never was a part of me

Wow, I hate this song Each time it comes on I hate this song Each time it comes on

La-la-la, make it stop La-la-la, heard enough La-la-la, holy fuck I don't wanna sing along La-la-la, make it stop La-la-la, heard enough La-la-la, holy fuck I hate this song

La-la-la, make it stop La-la-la, heard enough La-la-la, holy fuck I don't wanna sing along La-la-la, make it stop La-la-la, heard enough

## The Used

La-la-la, holy fuck I hate this song
