

# Hometown of Jupiter

The Vaccines

Missing you  
The life I knew  
But Heaven and Hell  
Got on so well  
Agreed to meet  
In the middle seat  
Screaming your name  
'Cross the astral plane

You knew I'd look for you  
Earth just like superglue

I don't wanna fall any further  
From my hometown of Jupiter  
Don't get away, don't get away with murder  
In my hometown of Jupiter, baby

Saw your hips  
Win scholarships  
For breaking their trance  
At the neutron dance  
But I would fly  
The long goodbye  
If I could waltz  
Beyond my faults

Here's an apology  
With brand new technology

I don't wanna fall any further  
From my hometown of Jupiter  
Don't get away, don't get away with murder  
In my hometown of Jupiter, baby

I, I miss my mama and papa  
In my hometown of Jupiter  
I, I was a happy shopper  
In my hometown of Jupiter, baby

You know I'm still in love with you  
You know I'm still in love with you  
You know that  
You know that, baby  
You know I'm still in love with you  
You know I'm still in love with you  
You know that  
You know that, baby
