## **Tuck and Roll**

**The Vaccines** 

What's bitching about tuck and roll? Oh I hate being out of control But you had to call, all the shots And your high, when your not, are you not? Oh I'm grinding my teeth and I'm carving a mud chopper jaw It's just something new that I've never considered before

Oh where are you at? I need a drink Oh look at that, I wish we waited I'm calling back who ever is calling I made it up, but the truth is appalling

You said you gave up, but forgot So is it appealing, or what? Oh, ain't it a curious thing, when your finger's too fat for yo ur ring? Would you bee more happy, if life was just strait down a line Maybe its better to be punishing by them by desire

Oh where are at? I need a drink Oh look at that, I wish we waited I'm calling back whoever is calling I made it up but the truth is appalling

Where are you at, I need a drink? Oh look at that I wish we waited I'm calling back whoever is calling I made it up but the truth is appalling x3
