

Your Love Is My Favourite Band

The Vaccines

I turn my radio on for you baby
At 2 AM they will be playing your song
I turn my radio on for you baby
I've been waiting all night long

I know you like to do me wrong
But your love is my favourite song
I knew you wouldn't understand
But your love is my favourite band

I turn my radio on for you baby
I heard how good, oh, it's a band on the run
I turn my radio on for you baby
Waiting up for number one

I turn my radio on for you baby
They push you back until a quarter to three
I turn my radio on for you baby
To hear the song you wrote for me

I know you like to do me wrong
But your love is my favourite song
I knew you wouldn't understand
But your love is my favourite band
Turn up by popular demand
'Cause your love is my favourite band

And I wait for you every night
Till you come in the morning light
And you know that I'm outta time
You'll need a rhythm just like mine

I know you like to do me wrong
But your love is my favourite song
I knew you wouldn't understand
But your love is my favourite band
Turn up by popular demand
'Cause your love is my favourite band
I hear you all over the land
And your love is my favourite band

Your love is my favourite band
Your love is my favourite band
Your love is my favourite band
Your love is my favourite band
