

How Fragile

The Valuator Time

Turn the stones
Find out what lies beneath
Is this what you've been looking for?
Or is it just another possibility?
A sea of doubts
Surrounding every step

Can you feel the weight of the unknown?

Let go
Let yourself drift away
Don't fear what you cannot change

Your head is a like a thin piece of glass
Reflecting every beam of light
Your lungs made of cellophane
Breathing out the smoke
The dust

It's all in your hands
Find out where your feet can take you
Climb up to unimagined heights
Immerse yourself in certainty

Let go
Let yourself drift away
Don't fear what you cannot change

How fleeting is a moment in time?
How fragile is the essence of life?
How fleeting is a moment in time?
How fragile is the essence of life?

How fleeting is a moment in time?
How fragile is the essence of life?
How fleeting is a moment in time?
How fragile is the essence of life?
