

Better

The Vamps

We fell in
Now we're falling apart
But do you even notice?
You're sleeping
While I'm falling apart
Going through the motions
So tell me

Did things get better
Or did we get used to it?
Tell me, how did we get here?
So much space in this bed
Did we learn to make a little
Feel like all that we could give?
Yeah, we can do better
Yeah, we can do better than this

I won't settle for less than best
I say it so I don't forget
I won't settle for less than best
And we can do better than this

I bite my tongue
Then I start to scream it
But does it make a difference at all?
'Cause we should be lovers if there's a spark
We should recover all that we lost
'Cause it's too good to let it go

Did things get better

Or did we get used to it?
Tell me, how did we get here?
So much space in this bed
Did we learn to make a little
Feel like all that we could give?
Yeah, we can do better
Yeah, we can do better than this

I won't settle for less than best
I say it so I don't forget
I won't settle for less than best
And we can do better than this

Did things get better
Or did we get used to it?
Tell me, how did we get here?
So much space in this bed
Did we learn to make a little
Feel like all that we could give?
Yeah, we can do better
Yeah, we can do better than this

I won't settle for less than best
I say it so I don't forget
I won't settle for less than best
And we can do better than this
