

Hang Myself from the Tree

The Vandals

Christmas is hell on earth, I know nothing worst
then being depressed and told to be happy.
The season of su-icide, I know why they died
Christmas reminds me I have nothing

I've got no girl there's only me
no friends or family, another Christmas alone
Got no food to eat, no ornaments or wreath
so I'll hang myself from the tree

Christmas is dark and wet, so I can't forget
Christmas reminds me I have nothing
this is the end of hope, I won't write a note
because it would be addressed to no one

I've got no girl there's only me
no friends or family, another Christmas alone
Got no food to eat, no ornaments or wreath
so I'll hang myself from the tree

Now I will say good-bye, no one will cry
Christmas goes on without me
My life is now complete, so I'll go to sleep
Forever and ever and ever...

I've got no girl there's only me
no friends or family, another Christmas alone
Got no food to eat, no ornaments or wreath
so I'll hang myself from the tree
