Master Race (In Outer Space)

The Vandals

```
one two three four
master race in outer space
they had to leave this earthly place
all the allies and the Russians too

this nazi shit don't do
this nazi shit don't do
this nazi shit don't do
so we launch them to the moon

the secret moon base was nearly complete
so we put the plan in motion for the space age feat
Germany was about to fall
they loaded up the rockets and launched them all

this nazi shit don't do
this nazi shit don't do
this nazi shit don't do
so we launched them to the moon

master race in outer space
they had to leave this earthly place
all the allies and the Russians too

this nazi shit don't do
this nazi shit don't do
this nazi shit don't do
so we launched them to the moon

one small step for man
one goose step for mankind (sieg heil baby)
one small step for man
one goose step for mankind (sieg heil baby)

this nazi shit don't do
this nazi shit don't do
this nazi shit don't do
so we launched them to the moon

master race in outer space
they had to leave this earthly place
all the allies and the Russians too

this nazi shit don't do
