

## Rico

## The Vandals

I live in the land of the freeways  
Home of the smog and traffic  
The sun and the air  
The mountains and sea  
Streams and palm trees  
The valleys...  
The canyons...  
The mountains...  
The beaches...  
Hollywood, downtown, the valley  
Are all places you should see  
The city at night, the city so bright  
a short time away a campfire sight  
The missions...  
The mansions...  
The farmlands...  
Punk rock bands...  
People come from all over  
to work and live in the sun  
It's always so nice  
my own paradise  
The desert , the snow  
So many places to go  
The people...  
The places...  
The weather...  
The faces...  
That's for me
