

Crazy

The Vapors

They told me I was crazy from the start
They said that you would only break my heart
But you closed your eyes and trusted me
You held my hand and believed in me
I never really knew what you're about
But I've had a great time finally now
You were never into teasing me
You are into fun, into pleasing me

And crazy don't seem crazy anymore
I don't know what you're waitin' for
Once you come inside and lock the door
I don't know what you're waitin' for
I don't care what other people see
I'm in love with you, you're in love with me
And crazy don't seem crazy anymore
So what you waitin' for?
So what you waitin' for?

I don't think I coulda made it on my own
I don't even think I'd find my way back home
I closed my eyes and trusted you
I held your hand and believed in you

And crazy don't seem crazy anymore
I don't know what you're waitin' for
Once you come inside and lock the door
I don't know what you're waitin' for
I don't care what other people see
I'm in love with you, you're in love with me
And crazy don't seem crazy anymore
So what you waitin' for?
What you waitin' for?

Come on, come on
What you waitin' for?
Come on, come on
What you waitin' for?
Come on, come on
What you waitin' for?
What you waitin' for?

I'm never gonna hurt you from now on
I know I have before but that was wrong
We've got everything we wanted now
It took so long but we won somehow

And crazy don't seem crazy anymore
I don't know what you're waitin' for
Once you come inside and lock the door
I don't know what you're waitin' for
I don't care what other people see
I'm in love with you, you're in love with me

And crazy don't seem crazy anymore
I don't know what you're waitin' for
Once you come inside and lock the door

I don't know what you're waitin' for
I don't care what other people see
I'm in love with you, you're in love with me
And crazy don't seem crazy anymore
So what you waitin' for?

Come on, come on
What you waitin' for?
Come on, come on
What you waitin' for?
Come on, come on
What you waitin' for?
What you waitin' for?
