

## Decompression

The Vapors

Decompression is what I bring  
Don't need more hypertension, cos hypertension is king  
We're going down with a hissing sound  
I'm getting less depression and less compression all round

It's all for you, it's all for you  
While you don't beat me you still leave me shades of purple, black and blue  
It's all for you, it's all for you  
There's no one else here who belongs in rehab half as much as you

Take a look at your hands, take a look at your face  
Take a look at your back to back to back meetings with the human race  
You stumble through, and we do too  
Clinging onto every word like lovers do

It's all for you, it's all for you  
While you don't beat me you still leave me shades of purple, black and blue  
It's all for you, it's all for you  
There's no one else here who belongs in rehab half as much as you

And even when you're down and out there's ways of getting in  
Just follow what I do and say as little as you can  
Then they'll start feeling down and out and ready to give in  
That's when you sneak right up on them and hit them from behind  
We play to win

I got a message from Hollywood  
She says nothing matters to her just as long as she looks good  
And I agree, that's what I see  
We're all looking as cool as we ought to be

It's all for you, it's all for you  
While you don't beat me you still leave me shades of purple, black and blue  
It's all for you, it's all for you  
There's no one else here who belongs in rehab half as much as you

It's all for one, and one for all  
That's not easy with your back, yeah, with your back against the wall  
It's one for all, and all for one  
In the land in the land in the land in the land in the land of

the rising sun

So decompression is what I bring

Don't need more hypertension, cos hypertension is king
