

# Forever & Ever

The Vapors

This is forever or till the lights go out  
Forever and ever unless you break my heart  
Cos we're happy together, not so happy apart  
So it's now and forever like it's been from the start

And the mornings come, and the mornings go  
So we sit right back and enjoy the show (aftershow, aftershow)

You're my porcupine  
Always been my valentine  
You're my wasp in a jar  
You've been good to me  
Always been a rock for me  
And now you've turned into a star

So this is forever and this is for real  
Forever and ever cos that's how I feel  
Now and forever cos that was the deal  
Forever and ever, however surreal

And the mornings come, and the mornings go  
So we sit right back and enjoy the show (aftershow, aftershow)

You're my porcupine  
Always been my valentine  
You're my wasp in a jar  
You've been good to me  
Always been a rock for me  
And now you've turned into a star

And this is forever  
Wo-o-o-o  
Forever and ever  
Wo-o-o-o

You're my porcupine  
Always been my valentine  
You're my wasp in a jar  
You've been good to me  
Always been a rock for me  
And now you've turned into a star

So this is forever and this is for real  
Forever and ever cos that's how I feel  
So this is forever

Wo-o-o-o  
You're the only one for me  
Wo-o-o-o  
You're the only one for me  
Wo-o-o-o  
You're the only one for me  
Wo-o-o-o  
You're the only one for me
