

Together

The Vapors

We've been through troubled times
We've been through stormy waters
It took its toll on us
Raising our sons and daughter
Now in the Amazon
We got our stuff together
We're even closer now
We can't be close forever

I used to think about you sometimes
Instead of thinkin' 'bout me
We used to laugh but we don't sometimes
That's what we both need

So, let's get together
Come on, let's get together
Come on, let's get together
Come on
I said, let's get together
Come on, let's get together
Come on, let's get together
Come on

Let's get together
Let's get together

I'm often out of touch
I'm often out of money
I tell my friends too much
But they just think it's funny
Buy me a burger bun
And then a burger bunny
Now you're the only one
Who likes to call me honey

I used to think about you sometimes
Instead of thinkin' 'bout me
We used to laugh but we don't sometimes
That's what we both need

So, let's get together
Come on, let's get together
Come on, let's get together
Come on
I said, let's get together
Come on, let's get together
Come on, let's get together
Come on

Let's get together
Let's get together

And now I really can't sleep when I close my eyes
I really can't breathe 'less you hold me tight
I really can't sleep
I really can't sleep
I really can't sleep tonight

We've been through troubled times
We've been through stormy waters
It took its toll on us
Just keeping it together

Let's get together
Let's get together

I used to think about you sometimes
Instead of thinkin' 'bout me
We used to laugh but we don't sometimes
That's what we both need

So, let's get together
Come on, let's get together
Come on, let's get together
Come on
I said, let's get together
Come on, let's get together
Come on, let's get together
Come on
I said, let's get together
Come on, let's get together
Come on, let's get together
Come on
I said, let's get together
Come on, let's get together
Come on, let's get together
Come on

Let's get together
Let's get together
Let's get together
Let's get together
