

Fuck You Up

The Varukers

Well cut you down to size you scum of the earth
We lay you down the rules you must observe

We tell you how it is you watch and learn
Legal rights gone don't be absurd

Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up
Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up

So get a new suit and comb your hair
Smarten up you know its not fair

Fuck up the interview you'll be in trouble
Well cut you of your benefits and watch you struggle

Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up
Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up

Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up
Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up

Take any job no matter how shit
You don't have the right to disagree with it

If it ain't for you than that's tough
If you don't agree they'll fuck you up

Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up
Your life in their hands they'll fuck it up
Open your mouth and they'll shut you up
