

I Don't Care

The Veer Union

I was yours for the tasting
You have been wasting
All the time that we once had

The words I am saving
Are for the paving
My way out from inside your head

You're not there and
I don't care
It's not the same without you there
It's not the same cause I don't care
Can't feel the pain inside your stare
Can't feel the pain cause I don't care
You're not there and I don't care

The smile that I'm facing
Now I'm erasing
Thoughts that I once could forgive

Now that I'm waving
You started craving
For a life we could have led

You're not there and
I don't care
It's not the same without you there
It's not the same cause I don't care
Can't feel the pain inside your stare
Can't feel the pain cause I don't care
You're not there and I don't care

I don't care
It's not the same without you there
It's not the same cause I don't care
Can't feel the pain inside your stare
Can't feel the pain cause I don't care
You're not there and I don't care

You're not there and I don't care
(You're not there and I don't care)
You're not there and I don't care
