

# Make Believe

The Veer Union

You're breaking away  
From all that you say  
How can we rewind  
What we've left behind  
You're falling away  
From inside of me  
Have your feelings gone  
To another one  
I won't waste my time again

Don't make me make believe  
Will you make up  
Your mind and  
Make me believe that you're mine and  
Your make up is blinding  
Make me believe you're not lying

It's starting to fade  
I'm falling again  
Have we had our fill?  
Are we standing still?  
It's changing in me  
It's easy to see  
Now this heart is done  
Where did we go wrong?  
I won't waste my time again

Don't make me make believe  
Will you make up  
Your mind and  
Make me believe that you're mine and  
Your make up is blinding  
Make me believe you're not lying  
Will you make up  
Your mind and (Make your mind and)  
Don't make me make believe  
Your make up is blinding (Make your mind and)  
Don't make me make believe

Don't make me make believe  
Don't make me make believe

Will you make up  
Your mind and  
Make me believe that you're mine and  
Your make up is blinding  
Make me believe you're not lying  
Will you make up  
Your mind and (Make your mind and)  
Don't make me make believe  
Your make up is blinding (Make your mind and)  
Don't make me make believe  
Don't make me make believe  
Don't make me make believe.
