

You'll Never Change

The Veer Union

Round and round now, here we go
As our hearts will fade like time
At least in the night [?]
Back to the shadows we move

We're always running and running away
Always running and running away
Let's try to change this, it never ends
I can't take this (I can't take this)

Is it always gonna be this way?
You'll never change, you'll never change, you'll never
I think it's written in your DNA
You'll never change, no I know you'll never change
And I've searched a million skies
But still the bullets fly
You're falling back into the same routine
You'll never change, no I know you'll never change

You'll never change
You'll never change

From above, we sink below
Into the shadows we move
Now we're running in circles again
Now we're running in circles again

Let's try to change this, it never ends
I can't take this (I can't take this)

Is it always gonna be this way?
You'll never change, you'll never change, you'll never
I think it's written in your DNA
You'll never change, no I know you'll never change
And I've searched a million skies
But still the bullets fly
You're falling back into the same routine
You'll never change, no I know you'll never change

How did we get so cold, so cold
Now we're caught in a stranglehold, so cold
Tell me, how did we get, how did we get so cold?
How did we get, how did we get so cold?

Is it always gonna be this way?
You'll never change, you'll never change, you'll never
I think it's written in your DNA
You'll never change, no I know you'll never change
And I've searched a million skies
But still the bullets fly
You're falling back into the same routine
You'll never change, no I know you'll never change

Is it always gonna be this way?
You'll never change, you'll never change, you'll never
I think it's written in your DNA
You'll never change, no I know you'll never change

You'll never change
You'll never change
