

## You Never Learn

The Veer Union

Why's it hard for you to see all of your delusions?  
Why is it that you believe only in allusions?  
I can't give you what you need

You never learn, your bridge is burned  
It's what you've earned, so take your turn  
You never learn, I guess it must be confusing  
You never learn, 'cause you're so good at using  
You never learn, now your bridge is burned  
Cause you never learn

You wonder why you're incomplete, you're searching for solutions  
They'll have everything you need, in the institution  
Don't come begging back to me

You never learn, your bridge is burned  
It's what you've earned, so take your turn  
You never learn, I guess it must be confusing  
You never learn, 'cause you're so good at using  
You never learn, now your bridge is burned

You try to settle the score, we've been here before  
Now I leave cause I see  
This time I'm locking the door  
There will be no more you and me  
You and me will be no more

It's what you've earned, so take your turn  
You never learn, I guess it must be confusing  
You never learn, 'cause you're so good at using  
You never learn, your bridge is burned  
It's what you've earned, your bridge is burned  
It's what you've earned, your bridge is burned  
It's what you've earned, so take your turn  
You never learn
