

## A Land Beyond

### The Veils

There's a land beyond this world we know  
There's a land that has no end  
There's a land beyond this world below  
There's a land beyond this world we know

There's a home beyond this jagged hill  
There's a bridge beyond this sorrow  
There's a land beyond this world we know  
There's a land beyond this world below

There's a light beyond this rocky sea  
There's a light we can't but follow  
To the land beyond this world below  
To the land beyond this world we know

There's a path beyond this ragged ridge  
And I'll meet you there tomorrow  
In the land beyond this world we know  
In the land beyond this world below

There's a land beyond this world we know  
There's a land that has no end
