

Between the Ocean and the Storm

The Veils

Never get tomorrow back
Sawing myself back in half
Love's what keeps the fire warm
Between the ocean and the storm
Spinning like a firework
Don't fall in love, you won't get hurt
You're like a bee without a swarm
Between the ocean and the storm

Oh no, I don't want you
I don't want you to know
Oh no, I don't want you
I don't want you to go - no I don't

There's evidence in short supply
Just take what you need to get by
They'll rue the day that you were born
Between the ocean and the storm
Praise it like the God above
Love 'til you can't get enough
Life ain't always true to form
Between the ocean and the storm

Oh no, I don't want you
I don't want you to know
Oh no, I don't want you
I don't want you to go - no I don't

Know your trouble by its name
Or find somebody else to blame
One less horror to perform
Between the ocean and the storm
