

Candy Apple Red

The Veils

I can't go back
No that chance has passed
Time's a one way track
Now I can't go back

Took me by surprise
How the time just flies
In my baby's eyes
And in-between those thighs

No
I
Won't forget my baby darling
No
I
Won't forget my baby darling

She makes me wet my lips
When she sways her hips
She's got a good luck charm
Hanging down one arm

And when her head goes back
Everything goes black
And the sky it bled
Candy apple red

No
I
Won't forget my baby darling
No
I
Won't forget my baby darling
