

It Hits Deep

The Veils

Hope there's someone
Cause I've been gone for awhile
Bid you let me
Let me come for a ride

Hope there's someone
Cause I've been down so long
All for something
Good for nothing
At all, all

It hits deeper
It does me no harm, harm

Hope there's someone
Cause I'll be gone for awhile
Bid you let me
Let me come for a ride

Hope there's someone
Cause I've been down so long
All for something
Good for nothing at all, all

I know

It hits deeper
It does me no harm, harm
Now there's nothing keeping
My heart from breaking

Hope there's someone
Cause I'll be gone for awhile
All for something
Good for nothing
At all, all

I know

It hits deeper
It does me no harm, harm
Now there's nothing keeping
My heart from breaking

I know

It hits deeper
It does me no harm, harm
Now there's nothing keeping
My heart from breaking
No, no

On and on and on...
