Sign of Your Love

The Veils

Don't say goodbye
Don't you release me
Turn up the light and show me the sign of your-
I know you said you won't believe it til
You reach out and touch it
Now show me the sign of your love
Show me the sign of your love

Ain't no light shining overhead
Ain't no fire burning down below
He got a voice could raise the dead
And pile the desert high with snow

Think there's an ending coming soon
I can hear it buzzing in the air
The dogs are howling at the moon
And I'm too lost in love to care

Don't say goodbye
Don't you release me
Turn up the light and show me the sign of your-
I know you said you won't believe it til
You reach out and touch it
Now show me the sign of your love
Show me the sign of your love
Show me the sign of your love
Show me the sign of your love

The stars are falling from the sky
Like great balloons made out of lead
It didn't take me by surprise
That when I asked them all they said:

"Boy, there's an ending coming soon
And the word is rising everywhere-"
The dead are dancing on the moon
And I'm too lost in love to care

Don't say goodbye
Don't you release me
Turn up the light and show me the sign of your-
I know you said you won't believe it til
You reach out and touch it
Now show me the sign of your love
Show me the sign of your love
Show me the sign of your love
Show me the sign of your love
