

# Catch Fire

The Veronicas

Stay close, don't leave  
Say you're right beside me  
You are such a rush  
Nothing scares me  
My hearts with you only  
Full speed, I'm so in love  
And I'm never looking back

If the world should fall I'll follow you  
And if you catch fire, I'll burn with you  
If the world should fall I'll follow you  
And if you catch fire, I'll burn with you

It's dark, where you are  
How did we get so far  
I promise you, you promise me  
Lead me, honestly  
My heart trusts you blindly  
No fear, only us  
And I'm never looking back

If the world should fall I'll follow you  
And if you catch fire, I'll burn with you  
If the world should fall I'll follow you  
And if you catch fire, I'll burn with you

If the world should fall I'll follow you  
And if you catch fire, I'll burn with you  
If the world should fall I'll follow you  
And if you catch fire, I'll burn with you
