

Goodbye

The Veronicas

Love in the dark
Breaking two hearts
That's what you said
And I know who you are
Am I going too far with you?
Secrets we keep
No-one could speak about us babe
Pulling me in
I never win, do you?

I'm still drunk at the bar
Watching your every move
Imagining how good you'd taste
Now we're standing face-to-face

You should get in your car
Baby just drive away
I don't wanna hear you say
All the things I wish you'd say

Cause our love is waiting back at home
And I know and I know
You and me, we could start a fire
Get too close
You burn my self-control
And I don't want to get to the point
That I just can't fight it

So goodbye to you

Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Gotta say goodbye to you

Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Gotta say goodbye to you

At the end of the night why can't this all just be easy
That look in your eyes, taking me down, down, down
I'm so conflicted trying to resist it but I need it
Guess I'm addicted, I just keep running right back

I'm still drunk at the bar
Watching your every move
Imagining how good you'd taste
Now we're standing face-to-face

You should get in your car
Baby just drive away
I don't wanna hear you say
All the things I wish you'd say

Cause our love is waiting back at home
And I know and I know

You and me, we could start a fire
Get too close
You burn my self-control
And I don't want to get to the point
That I just can't fight it

So goodbye to you

Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Gotta say goodbye to you

Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Gotta say goodbye to you

You should get in your car
Baby just drive away
I don't wanna hear you say
All the things I wish you'd say

Cause our love is waiting back at home
And I know and I know
You and me, we could start a fire
Get too close
You burn my self-control
And I don't want to get to the point
That I just can't fight it

So goodbye to you

Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Gotta say goodbye to you

Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Goodbye, goodbye, goodbye, good
Gotta say goodbye to you
