

# Forever Reaching

## The Verve Pipe

It's just a thread of crimson that binds us  
Wrapped in red it always reminds us

This is how it begins  
A moment found  
Try to keep it from ending  
Who are we to defy gravity  
It's unrelenting  
Strike a match in the dark  
We can see  
And though it's fleeting  
It's enough just for now  
We belong  
Forever reaching...  
Forever reaching...

We're the same for so many reasons  
Nothing's changed except for the seasons

This is how it begins  
A moment found  
Try to keep it from ending  
Who are we to defy gravity  
It's unrelenting  
Strike a match in the dark  
We can see  
And though it's fleeting  
It's enough just for now  
We belong  
Forever reaching...  
Forever reaching...

This is how it begins  
A moment found  
Try to keep it from ending  
Who are we to defy gravity  
It's unrelenting  
Strike a match in the dark  
We can see  
And though it's fleeting  
It's enough just for now  
We belong  
Forever reaching...  
Forever reaching...
