

It's the Little Things

The Verve Pipe

Your love
And all the joy that it brings
It's all of the littlest things you do for me when you're around

What I've come to
Is do I really deserve you
Live my life just to serve you throw my body to the ground

Bow down
Bow down

It's the little
Things that matter most, like
When you're pulling me close, I feel your fire let me burn

Leave a note that
Leaps up off the page that you
Wrote to rattle my cage a flash like lightning struck the earth

Bow down (every little thing you)
Bow down (every little thing you)
Bow down (every little thing you)
(Everything)

I love it when you lie to me (lie to my face)
It keeps me coming back for more
And when you are degrading me (lie to my face)
It keeps me coming back for sure
And apparently what keeps me coming back for more
It's the little things

So lovely
Always thinking of me
The toxic way that you love me drops of poison in your words

Bow down (every little thing you)
Bow down (every little thing you)
Bow down (every little thing you)

And I love it when you lie to me
(Lie to my face it keeps me coming back for more)
It keeps me coming back for more
And when you are degrading me
(Lie to my face it keeps me coming back for sure)
It keeps me coming back for sure
And apparently what keeps me coming back for more
Are all the little things

A love so sweet
Will knock you off your feet
Head over heels
Boy nothing feels
Like your love

So go ahead and lie to me
(Lie to my face it keeps me coming back for more)
It keeps me coming back for more

And when you're degrading me
(Lie to my face it keeps me coming back for sure)
It keeps me coming back for sure
And apparently what keeps me coming back for more
It's the little things
