

## Set Me on Fire

The Verve Pipe

Here I am  
All alone in a crowd  
Let this feeling  
Crash over me now

Cause I'd rather feel lonely  
Than nothing at all  
So let me be lonely  
Let me go  
Let me go

I've been waiting  
For long enough  
Sometimes I need  
A different kind of drug

To make me feel alive  
Make me sing

I just need a spark to carry  
To make me feel less ordinary  
Please set me on fire or let me go  
Cause I'd rather be lonely than to feel  
Surrounded by nothing that is real  
Let me be lonely  
Let me go

Take the risk  
No matter the cost  
In this moment  
I'd rather be lost

Now you're just someone that I sleep next to  
This bed is still empty with you

I just need a spark to carry  
To make me feel less ordinary  
Please set me on fire or let me go  
Cause I'd rather be lonely than to feel  
Surrounded by nothing that is real  
Let me be lonely  
Let me go
