

I Don't Wanna Sleep Alone

The Vibrators

I went back to my home town
Buildings gone up, buildings come down
All my friends have moved away
Nothing seems to stay the same
And girl, you always complain

And I don't wanna sleep alone

Bring me my crack and my servants three
I'm just having a drug fantasy
There's no intelligence, there's no dream
In the end there's nothing

'Cos I don't wanna sleep alone
Oh no

Hey girl, you're gonna write off the car
Hey girl, I'm going gaga
Only you can dissuade me
Rock me baby

'Cos I don't wanna sleep alone

And I don't wanna sleep alone

And I don't wanna sleep alone
